Although it is not an equal pay / equal play program, equal opportunity will be given to all athletes, but those athletes portraying characteristics outlined by the coaching staff may see more court time. The players will be pushed to compete in every practice and ultimately there will be growth and development for them because of their commitment. In general, we are looking for interested athletes who wish to expand their level of play.

We are looking for fully committed athletes, however multi-sport athletes are most welcome, and will not be discouraged from participating in other activities. Teams will generally practice 1-2 times per week depending on athlete, coach, and gym availability.
